ELECTRONIC CHROME & GRINDING CO.
9132 DICE RD
SANTA FE SPRINGS CA 90670-2545

Category A SIC Code: 3599

If you are registered to make your payment by electronic funds transfer (EFT), you must still file our return timely. You can mail your return in the envelope provided or fax it to 916-327-0859. To register to make payments via EFT please contact us at 916-322-9534.

All employers in industries with evidence of a potential for lead poisoning are required to file the Occupational Lead Poisoning Prevention Fee Return. This return is being sent to you because you have been identified by the Department of Health Services (DHS) as being in one of these industries. Please read the instructions on the reverse side before you begin, then read Sections I and II below and complete the section that is applicable to you. Mail the return, along with any payment due, to the address above. **The fee category (A or B) which is applicable to your business is shown above with your SIC code.**

SECTION I

Complete this section if you are requesting a fee waiver.

- ☐ 1a. I will request a fee waiver because lead or lead containing materials were not present or were present in a de minimus (minimal) amount at any California site of my business operation during the calendar year. I understand that if I do not request a waiver within 180 days following the due date of this return and/or if a waiver is not granted, the fee plus applicable interest will be due.
- ☐ 1b. Check here if you have applied for a fee waiver before and only need a new application.

If you checked either box above, do the following:

2. Enter the total number of your employees at all California locations (see Definitions on the back of the form).

Sign and date this return and send it to the address above. Maintain a copy for your records. **The filing of this return is required, but it does not constitute a fee waiver request.**

A fee waiver application and instructions will automatically be sent to you by the DHS after this return is received by the Board of Equalization. Indicate any corrections to your address above.

SECTION II

Complete this section if you are NOT requesting a fee waiver.

A NUMBER OF EMPLOYEES DURING CALENDAR YEAR COVERED BY THIS RETURN		B AMOUNT OF FEE	C AMOUNT OF FEE DUE
Category A: (Complete only if you are in Category A)			
1. Less than 10 employees (if less than 10 employees, check box at right)	1.	0.00

Removal From Prepayment
Status-Generator Fee

Dear Generator:

Section 43152.15 of the Revenue and Taxation Code provides for the Board of Equalization to determine the criteria for requiring a prepayment of the generator fee. The criteria used to identify accounts required to make prepayments are those accounts that had a generator fee annual liability of \$1,000.00 or more.

A review of your account indicates that you no longer meet the criteria and, as of January 1, 2001, you will not be required to file a generator fee prepayment form. Until further notice, you will need to file only the annual return which is due on the last day of February following the calendar year reporting period.

If you are no longer generating hazardous waste, please call or write us so we can close your account. If additional information is needed, please call (916) 323-9534.

GENERAL INFORMATION

The Generator Fee is imposed on each site that generates (produces) hazardous waste of 5 tons or more in each calendar year. The fee is calculated for each site's generation of waste regardless of the waste's final disposition (i.e., recycling or disposal).

Each year a prepayment of the fee is due by August 31 and an annual return for the year must be filed by the last day of February following the end of the reporting period. An annual return must be filed even if you have no additional liability due. Failure to file either the prepayment or annual return may result in the imposition of penalty charges. Facility operators who pay an annual Facility Fee at a site are not subject to a Generator Fee for the same site.

FILING INSTRUCTIONS

Please complete the worksheets on the reverse to calculate total amount due below.

MAKE CHECK OR MONEY ORDER PAYABLE TO STATE BOARD OF EQUALIZATION.

Always write your account number on your check or money order. Make a copy of this document for your records.

PREPAYMENT FILING REQUIREMENTS

You can determine the prepayment amount you owe by using either Option 1 or Option 2 below. Complete the applicable worksheet and enter the option chosen and amount due on the front of the form.

Exemptions from the Fee

- 1) Used motor oil removed from motor vehicles that is recycled by a recycler permitted by the Department of Toxic Substances Control.
- 2) Wastes that are generated, recycled and reused onsite.
- 3) Aqueous waste treated onsite in a treatment unit operating, or which subsequently operates, under a permit by regulation, conditional authorization, or conditional exemption. However, hazardous waste generated by the treatment unit is subject to the Generator Fee.

OPTION 1 - WORKSHEET

Please select the appropriate fee category for each site where hazardous waste was generated in this state.

A CLASSIFICATION OF GENERATING SITES (Total volume of hazardous waste generated at each site during January 1 through June 30 of the current calendar year)	B NUMBER OF SITES (Do not list tonnage)	C AMOUNT OF FEES	D TOTAL FEE DUE (Column B x C)
1. Generators which generate less than 5 tons	1.	\$ 0.00	\$ 0
2. Generators which generate an amount equal to or more than 5 tons, but less than 25 tons	2.	\$ 147.00	
3. Generators which generate an amount equal to or more than 25 tons, but less than 50 tons	3.	\$ 1,178.00	
4. Generators which generate an amount equal to or more than 50 tons, but less than 250 tons	4.	\$ 2,945.00	
5. Generators which generate an amount equal to or more than 250 tons, but less than 500 tons	5.	\$ 14,725.00	
6. Generators which generate an amount equal to or more than 500 tons, but less than 1,000 tons	6.	\$ 29,450.00	
7. Generators which generate an amount equal to or more than 1,000 tons, but less than 2,000 tons	7.	\$ 44,175.00	
8. Generators which generate an amount equal to or more than 2,000 tons	8.	\$ 58,900.00	
9. TOTAL AMOUNT DUE (add lines 1 through 8 in Column D; enter here and on line 1 on front of form)	9.		\$ 0

OR

OPTION 2 - WORKSHEET

A. Enter amount of fee due to the Board of Equalization for the prior year Generator Fee reporting period as reported on line 10 of the annual return. This amount is exclusive of any prepayments, penalty or interest charges. (If zero for the prior period, you must use Option 1)	A. \$
B. Multiply amount on line A by 50% (line A x .50; enter here and on line 1 on front of form)	B. \$

Each year a prepayment of the fee is due by August 31 and an annual return for the year must be filed by the last day of February following the end of the reporting period. An annual return must be filed even if you have no additional liability due. Failure to file either the prepayment or annual return may result in the imposition of penalty charges. Facility operators who pay an annual Facility Fee at a site are not subject to a Generator Fee for the same site.

FILING INSTRUCTIONS

MAKE CHECK OR MONEY ORDER PAYABLE TO STATE BOARD OF EQUALIZATION.

Always write your account number on your check or money order. Make a copy of this document for your records.

PREPAYMENT FILING REQUIREMENTS

You can determine the prepayment amount you owe by using either Option 1 or Option 2 below. Complete the applicable worksheet and enter the option chosen and amount due on the front of the form.

Exemptions from the Fee

- 1) Used motor oil removed from motor vehicles that is recycled by a recycler permitted by the Department of Toxic Substances Control.
- 2) Wastes that are generated, recycled and reused onsite.
- 3) Aqueous waste treated onsite in a treatment unit operating, or which subsequently operates, under a permit by regulation, conditional authorization, or conditional exemption. However, hazardous waste generated by the treatment unit is subject to the Generator Fee.

OPTION 1 - WORKSHEET

Please select the appropriate fee category for each site where hazardous waste was generated in this state.

A CLASSIFICATION OF GENERATING SITES (Total volume of hazardous waste generated at each site during January 1 through June 30 of the current calendar year)		B NUMBER OF SITES (Do not list tonnage)	C AMOUNT OF FEES	D TOTAL FEE DUE (Column B x C)
1. Generators which generate less than 5 tons	1.	1	\$ 0.00	\$ 0
2. Generators which generate an amount equal to or more than 5 tons, but less than 25 tons	2.		\$ 147.00	
3. Generators which generate an amount equal to or more than 25 tons, but less than 50 tons	3.		\$ 1,178.00	
4. Generators which generate an amount equal to or more than 50 tons, but less than 250 tons	4.		\$ 2,945.00	
5. Generators which generate an amount equal to or more than 250 tons, but less than 500 tons	5.		\$ 14,725.00	
6. Generators which generate an amount equal to or more than 500 tons, but less than 1,000 tons	6.		\$ 29,450.00	
7. Generators which generate an amount equal to or more than 1,000 tons, but less than 2,000 tons	7.		\$ 44,175.00	
8. Generators which generate an amount equal to or more than 2,000 tons	8.		\$ 58,900.00	
9. TOTAL AMOUNT DUE (add lines 1 through 8 in Column D; enter here and on line 1 on front of form)			9.	\$ 0

OR

OPTION 2 - WORKSHEET

A. Enter amount of fee due to the Board of Equalization for the prior year Generator Fee reporting period as reported on line 10 of the annual return. This amount is exclusive of any prepayments, penalty or interest charges. (If zero for the prior period, you must use Option 1)	A.	\$ 144.00
B. Multiply amount on line A by 50% (line A x .50; enter here and on line 1 on front of form)	B.	\$ 72.00

RE: HA EF 36-006117
1998 Generator Fee Claim For Refund

Ladies and Gentlemen:

We have received your claim for refund filed pursuant to Senate Bill 2014 and Health and Safety Code Section 25205.9. Your claim for refund was either for the local generator inspection fees or for recycled waste. The refund was contingent on the Department of Toxic Substance Control (DTSC) certifying that surplus funds were available.

The Department of Toxic Substance Control has determined that it does not have surplus funds within the meaning of Health and Safety Code Section 25174(k). Accordingly, your claim for refund is hereby denied. If you have any questions, please give me a call at (916) 323-9505.

Sincerely,

A handwritten signature in cursive script that reads "Mike Philpot".

Re: Prepayment of Hazardous Waste Fees
Account No. 36-006117

Due to a large reduction of sales in 1999 we did not have as much hazardous waste to dispose of as we did in the previous year. Last August we made a prepayment based on the fees of 1998 and according to my records this prepayment was more than this year's fees. Therefore we are request a refund of the overpayment of \$418.00.

Sincerely,

Joyce Gillam
Bookkeeper

MAKE CHECK OR MONEY ORDER PAYABLE TO STATE BOARD OF EQUALIZATION.

Always write your account number on your check or money order. Attach a copy of this document to your payment.

HAZARDOUS WASTE GENERATOR FEE RETURN INSTRUCTIONS

GENERAL INFORMATION

The Generator Fee is imposed on each site that generates (produces) hazardous waste of 5 tons or more in each calendar year. The fee is calculated for each site's generation of waste regardless of the waste's final disposition (i.e., recycling or disposal).

EXEMPTIONS FROM THE FEE

- 1) Used oil removed from motor vehicles that is recycled by a recycler permitted by the Department of Toxic Substances Control.
- 2) Wastes that are generated, recycled and reused onsite.
- 3) Aqueous waste treated onsite in a treatment unit operating, or which subsequently operates, under a permit by regulation, conditional authorization or conditional exemption. However, hazardous waste generated by the treatment unit is subject to the Generator Fee.

FILING REQUIREMENTS

Every person who produces hazardous waste must file this return on or before the last day of February with remittance to the Board of Equalization for any amounts due. This return must be filed even though you have no liability for the fee. Failure to file may result in the imposition of civil penalties. Late payment incurs a penalty of 10% (.10) and interest at an adjusted annual rate established under Section 6591.5 of the Revenue and Taxation Code. Facility operators who pay the Facility fee are not subject to the Generator Fee for the facility site.

FILING INSTRUCTIONS

Please select the appropriate fee category in Column A on the front of the return for each site where hazardous waste was generated in this state. Multiply the number of generating sites in Column B by the amount of fees in Column C and enter the amount of fees due in Column D.

If you are reporting for more than one site, please use the enclosed Schedule G or provide the site address, EPA number, and appropriate fee category for each site on an attachment.

PREPAYMENT CREDIT (LINE 11)

Some accounts were required to file a prepayment by August 31. If you paid a prepayment, enter on line 11 the amount of fee paid. If delinquency charges were paid, **do not** include those charges in the credit. If, after claiming the prepayment, the total amount due and payable on line 15 is a credit, include a letter with your return requesting the amount to be refunded to you.

GENERAL INFORMATION

The Generator Fee is imposed on each site that generates (produces) hazardous waste of 5 tons or more in each calendar year. The fee is calculated for each site's generation of waste regardless of the waste's final disposition (i.e., recycling or disposal).

Each year a prepayment of the fee is due by August 31 and a final return for the year must be filed by the last day of February following the end of the reporting period. An annual return must be filed even if you have no additional liability due. Failure to file either the prepayment or annual return may result in the imposition of penalty charges. Facility operators who pay an annual Facility Fee at a site are not subject to a Generator Fee for the same site.

FILING INSTRUCTIONS

Please complete the worksheets on the reverse to calculate total amount due below.

AMOUNT OF PREPAYMENT (place a check mark by the option you choose)

- ☐ Option 1 One hundred percent (100%) of the applicable Generator Fee based on the total volume of hazardous waste generated for all sites during January 1 through June 30 of the current calendar year.

OR

- ☒ Option 2 An amount equal to fifty percent (50%) of the Generator Fee paid to the Board for the preceding calendar year (if zero for prior year, you must use Option 1).

1. Amount of prepayment (enter amount from worksheet on reverse) 1. \$ 562.00 .00
2. Penalty [multiply line 1 by 10% (.10) if payment is made after due date shown above] 2. \$00
3. Interest of 10% per annum (0.008333 per month) is due if payment is made after the due date. 3. \$00

All employers in industries with evidence of a potential for lead poisoning are required to file the Occupational Lead Poisoning Fee Return. This return is being sent to you because you have been identified by the Department of Health Services as being in one of these industries.

Please read the instructions on the reverse side before you begin, then read Sections I and II below and complete the section that is applicable to you. Mail the return, along with any payment due, to the address above. **The fee category (A or B) which is applicable to your business is shown above with your SIC code.**

SECTION I**Complete this section if you are requesting a fee waiver.**

- ☐ 1a. I will request a fee waiver because lead or lead containing materials were not present or were present in a de minimus (minimal) amount at any California site of my business operation during the calendar year. I understand that if I do not request a waiver within 180 days following the due date of this return and/or if a waiver is not granted, the fee plus applicable interest will be due.
- ☐ 1b. Check here if you have applied for a fee waiver before and only need a new application.

If you checked either box above, do the following

2. ☐ Enter the total number of your employees at all California locations (see Definitions on the back of the form).

Sign and date this return and send it to the address above. Maintain a copy for your records. **The filing of this return is required, but it does not constitute a fee waiver request.**

A fee waiver application and instructions will automatically be sent to you after this return is received by the Board of Equalization. Indicate any corrections to your address above.

SECTION II**Complete this section if you are NOT requesting a fee waiver.**

OCCUPATIONAL LEAD POISONING FEE RETURN INSTRUCTIONS

GENERAL INFORMATION

Section 105190 of the California Health and Safety Code requires all employers with 10 or more employees in an industry where there is evidence of a potential for occupational lead poisoning to pay the Occupational Lead Poisoning Fee. Those employers who do not have lead or lead-containing materials present in any amount or who only have a de minimus (minimal) amount in their business operations may request a fee waiver which, if granted, will relieve them of paying a fee for the calendar year. Employers with 10 or more employees not requesting a waiver are subject to the fee. These fees are used to fund the Occupational Lead Poisoning Prevention Program in the Department of Health Services (DHS).

Each year DHS provides the Board of Equalization (BOE) with a list of industries which DHS has determined have the potential for occupational lead poisoning. The industries are designated by the Standard Industrial Classification (SIC) codes. DHS also provides the BOE with a list of employers whose business operations fall within the listed industries.

DEFINITIONS (According to Section 38001 of Title 17 of the California Code of Regulations)

Employee means any individual employed for at least 160 hours in the prior calendar year (during the reporting period shown on the front of this return), regardless of whether the individual's specific job involved potential exposure to lead or lead-containing materials.

Standard Industrial Classification (SIC) Code means a system of four-digit numerical codes to designate the activities of a business operation, set forth by the U.S. Office of Management and Budget in the Standard Industrial Classification Manual, 1987.

Lead was not present at the place of employment means that no amount of lead or lead-containing material was present at the place of employment or in the materials and processes used in the operation of the employer's business, with the following exceptions:

- (1) Lead that was not altered or disturbed during the operation of the employer's business and was present in a form, or contained in such a manner, that it could not be inhaled or ingested (examples are undisturbed building materials, unused materials and supplies, intact lead storage batteries); or
- (2) Lead present as a result of general environmental contamination which was not the result of the operation of the employer's business.

De minimus amount means any of the following:

- (1) Lead present in materials which are altered or disturbed and have a lead concentration less than 0.5% (5,000 ppm) by weight;
- (2) Lead present in materials where the total weight of such materials altered or disturbed during the calendar year is known to be 16 ounces (one pound) or less by weight; or
- (3) Lead present in materials where no such material is altered or disturbed at any individual employee's place of employment on more than one day during the calendar year (i.e., if no employee works on more than one day during the calendar year in any location where lead-containing materials are being altered or disturbed, then the amount is de minimus).

HOW TO FILE

Review the following information to determine which section on the front of the return you are required to complete.

"SECTION I" on this return is provided for employers to inform the BOE that no fee is required at this time because a fee waiver will be requested. Only employers who do not have lead or lead-containing materials present or who only have a de minimus (minimal) amount present at any California site qualify to claim a waiver. If you will be requesting a waiver you should complete Section I and follow the instructions it contains. **A fee waiver application and instructions will automatically be sent to you if you check the box in Section I.** Employers that wish to request a fee waiver must send their completed application to the DHS within 180 days of the due date of this return. For specific questions regarding fee waivers contact the DHS Occupational Lead Poisoning Prevention Program by calling (510) 622-4332. The address is: Department of Health Services, OLPPP, 1515 Clay St., Suite 1901, Oakland, CA 94612. Persons completing this section may file the return without payment. However, if a waiver request and documentation are not submitted as required or a waiver is not granted, the fee is due. The BOE will bill you for any fee due plus interest at the statutory rate. **EMPLOYERS COMPLETING THIS SECTION NEED NOT COMPLETE SECTION II.**

"SECTION II" on the return is provided for employers to report and pay fees due. Employers who have a business operation described by a SIC code listed in Title 17 CCR Section 38005 and who have not completed "SECTION I" are required to complete this section and pay any fee due. This section shows the rates for both Category A and Category B reporting. The appropriate category for your business is shown on the front of the return with your SIC code. If you have any questions about how to complete this section, contact the State Board of Equalization at (916) 323-9555.

PREPARATION OF RETURN

Read Sections I and II on the front of the return and complete the section that is applicable to you. Complete the bottom line of the return, sign it, and send it along with any payment due to the Board of Equalization at the address on the front of the return. Retain a copy of the return for your records and please refer to your account number on the top of the return in any correspondence you send regarding the return.

IF YOU WISH ADDITIONAL INFORMATION, PLEASE CONTACT THE STATE BOARD OF EQUALIZATION, ENVIRONMENTAL FEES DIVISION, PO BOX 942879, SACRAMENTO, CA 94278-0067, TELEPHONE (916) 323-9555.

RE: HA EF 36-006117
1998 Generator Fee Return

Dear Ms. Gillam:

Based on a reconciliation of manifests filed with the Department of Toxic Substances Control (DTSC), it appears that you may have underpaid the 1998 Annual Hazardous Waste Generator Fee Return imposed pursuant to Health and Safety Code Section 25205.5.

Below is an analysis by site showing the tonnage upon which the reclassification is being made.

Hazardous Waste Generator Fee

<u>EPA #</u>	<u>Tons Per DTSC</u>	<u>Reported Category</u>	<u>Reclassified Category</u>	<u>Additional Fee Due</u>	<u>Interest Through June 2001</u>
CAD008391427	50.7	4	5	\$1,685.00	\$432.54

Please note that for the Hazardous Waste Generator Fee Return, total tonnage includes recycled waste, waste shipped out of state, and any waste generated as the result of a one-time cleanup. However, used motor oil removed from motor vehicles that is recycled is not subject to the fee.

For your information, we have listed the Annual Hazardous Waste Generator Fee Rates for 1998.

Hazardous Waste Generator Fee Rates for 1998

<u>Category</u>	<u>Generator Fee Rate</u>
Category 2 Less than 5 tons	-0-
Category 3 5 tons to less than 25 tons	140.00
Category 4 25 tons to less than 50 tons	1,123.00
Category 5 50 tons to less than 250 tons	2,808.00
Category 6 250 tons to less than 500 tons	14,040.00
Category 7 500 tons to less than 1000 tons	28,080.00
Category 8 1000 tons to less than 2000 tons	42,120.00
Category 9 2000 tons plus	56,160.00

If you do not agree with the proposed Hazardous Waste Generator Fee, forward additional information and documentation to reconcile any discrepancies. Should we not hear from you within 30 days from the date of this letter, we shall assume that you concur with our findings and a notice of determination will be issued for the applicable Annual Hazardous Waste Generator Fee for \$2,117.54 which includes interest through June 2001. (Please note, all determinations issued accrue interest monthly on the tax due computed from the due date of the return. Because interest continues to accrue at the rate of 1.00 percent each month or any fraction thereof, on any fees unpaid, it would be advisable to pay the liability as soon as possible. If you make a payment based on this letter and are not in agreement with the additional fee, please include a claim for refund with the payment. Any fees ultimately determined to not be due will be refunded with interest.) Please include a copy of this letter should you reply.

Thank you for your cooperation in this matter. For any additional information or questions, please call me at (916) 323-9507.

Sincerely,

David Crumley
Tax Auditor
Environmental Fees Division

SPECIAL NOTICE - GENERATOR FEE REFUND CLAIMS*(1998 Claims must be postmarked by March 31, 1999)*

Senate Bill 2014 (Chapter 737), enacted in 1998, provides for two potential refunds of the hazardous waste generator fee paid to the Board of Equalization (Board).

The first is for generators who paid generator fees to the Board and who have also paid generator inspection fees to a Certified Unified Program Agency (CUPA). The bill provides that

- The generator must have received a local fee credit against the state generator fee paid for hazardous waste generated in 1996; and
- The refund cannot exceed the lower of (1) the generator fee paid for the calendar year period for which the claim is made; or (2) the hazardous waste generator inspection fee paid to a CUPA in the calendar year period for which the claim is made.

The second is for generators who submit hazardous waste for recycling. The bill provides that

- The hazardous waste must be submitted to an offsite facility that pays a facility fee under section 25205.2 of the Health and Safety Code;

*(continued on reverse)***Claim for Refund Pursuant to Senate Bill 2014 (Chapter 737), Calendar Year 1998****Health and Safety Code Section 25205.9***(copy and use a separate form for each generation site)*

BOARD OF EQUALIZATION ACCOUNT NUMBER (e.g., HA EF 36-XXXXXX)	REFUND TYPE <input type="checkbox"/> Local Generator Inspection Fees or <input checked="" type="checkbox"/> Recycled Waste	EPA NUMBER

SITE ADDRESS 9132 DICE ROAD SANTA FE SPRINGS, CA 90670	ELECTRONIC CHROME & GRINDING CO., INC.	
NAME AND TITLE (please print) JOYCE GILLAM, SECRETARY	SIGNATURE <i>Joyce Gillam</i>	DATE 3/3/99

SEND CLAIM TO: Environmental Fees Division, MC:57, Special Taxes Department, State Board of Equalization
PO Box 942879, Sacramento, CA 94279-0057

- The deduction of the amount of hazardous waste transferred to the offsite facility from the total tonnage of hazardous waste generated at the generator's site results in the generator being eligible for a lower generator fee category; and
- The hazardous waste submitted to the offsite facility for recycling cannot be burned in a boiler, industrial furnace or incinerator, used in a manner constituting disposal, or used to produce products applied to land.

If you wish to apply for either or both of these refunds for the 1998 calendar year, you must send a written request to the Board, **postmarked no later than March 31, 1999**. Please note that you must file a *separate request* for each type of refund, for *each* generation site. While claims for refund for the 1998 calendar year are due no later than March 31, 1999, the Department of Toxic Substances Control (DTSC) has not yet determined whether funds will be available to pay those refunds.

The DTSC must determine, on or before June 30, 1999, whether funds are available to pay the refunds. As provided by Health and Safety Code section 25205.9 (a), available funds will be used to pay local generator inspection fee refunds before they are used to pay recycled waste refunds.

A claim for refund does not need to be submitted on any specific form; however, you may use the sample on the front to help you file your claim. Once the DTSC informs the Board that funds are available, you will be contacted for any additional documentation required to support your claim.

If you have any questions regarding this notice or the claim for refund requirements, please contact the Board of Equalization's Environmental Fees Division at (916) 322-9534, or call the Board's toll-free information number at 1-800-400-7115.

GENERAL INFORMATION

The Generator Fee is imposed on each site that generates (produces) hazardous waste of 5 tons or more in each calendar year. The fee is calculated for each site's generation of waste regardless of the waste's final disposition (i.e., recycling or disposal).

Each year a prepayment of the fee is due by August 31 and a final return for the year must be filed by the last day of February following the end of the reporting period. An annual return must be filed even if you have no additional liability due. Failure to file either the prepayment or annual return may result in the imposition of penalty charges. Facility operators who pay an annual Facility Fee at a site are not subject to a Generator Fee for the same site.

FILING INSTRUCTIONS

Please complete the worksheets on the reverse before filling in information below.

AMOUNT OF PREPAYMENT (place a check mark by the option you choose)	
<input type="checkbox"/> Option 1	One hundred percent (100%) of the applicable Generator Fee based on the total volume of hazardous waste generated for all sites during January 1 through June 30 of the current calendar year.
<input type="checkbox"/> Option 2	An amount equal to fifty percent (50%) of the Generator Fee paid to the Board for the preceding calendar year (if zero for prior year, you must use Option 1)
1. Amount of prepayment (enter amount from worksheet on reverse)	1. \$ <u>1,123.00</u>
2. Penalty (multiply line 1 by 10% (.10) if payment is made after due date shown above)	2. \$ <u>.00</u>
3. INTEREST OF 12% PER ANNUM (0.010000 PER MONTH) IS DUE IF PAYMENT IS MADE AFTER THE DUE DATE.	3. \$ <u>.00</u>
4. TOTAL AMOUNT DUE AND PAYABLE (add lines 1, 2 and 3)	4. \$ <u>1,123.00</u>

MAKE CHECK OR MONEY ORDER PAYABLE TO STATE BOARD OF EQUALIZATION:
Always write your account number on your check or money order. Make a copy of this document for your records.

PREPAYMENT FILING REQUIREMENTS

You can determine the prepayment amount you owe by using either Option 1 or Option 2 below. Complete the applicable worksheet and enter the option taken and amount due on the front of the form.

CREDIT FOR LOCAL FEES DISCONTINUED

As of January 1, 1997, the Department of Toxic Substances Control has rescinded all memorandums of understanding. Therefore, fees paid to a local agency can no longer be credited against the Generator Fee.

OPTION 1 - WORKSHEET

Exemptions from the Fee

- 1) Used motor oil removed from motor vehicles that is recycled by a recycler permitted by the Department of Toxic Substances Control.
- 2) Wastes that are generated, recycled and reused onsite.
- 3) Aqueous waste treated in a treatment unit operating, or which subsequently operates, under a permit by regulation, conditional authorization, or conditional exemption. However, hazardous waste generated by the treatment unit, including treatment residues produced from waste generated by another person, is subject to the Generator Fee.

Please select the appropriate fee category for each site where hazardous waste was generated in this state.

A CLASSIFICATION OF GENERATING SITES (Total volume of hazardous waste generated at each site during January 1 through June 30 of the current calendar year)	B NUMBER OF SITES (Do not list tonnage)	C AMOUNT OF FEES	D TOTAL FEE DUE (Column B x C)
1. Generators which generate less than 5 tons	1.	\$ 0.00	\$
2. Generators which generate an amount equal to or more than 5 tons, but less than 25 tons	2.	\$ 140.00

NOTICE OF DETERMINATION			
YOU ARE HEREBY NOTIFIED OF AN AMOUNT DUE AS SHOWN BELOW.			

HAZARDOUS SUBSTANCE TAX GRANT OF CONDITIONAL AUTHORIZATION	AMOUNT			
	FEE	INTEREST	PENALTY	TOTAL
AS DETERMINED FOR THE PERIOD 01/01/97 - 12/31/97	1255.00			1255.00
TOTAL	1255.00			1255.00
	***** PAY THIS AMOUNT			1255.00

ADDITIONAL INTEREST OF \$ 12.55 ACCRUES ON THE AMOUNT OF FEE AT THE RATE OF 1.0000% PER MONTH AFTER 01/01/98.

ADDITIONAL PENALTY OF \$ 125.50 IS DUE IF NOT PAID BY 12/07/97.

THE ANNUAL FEE HAS BEEN ASSESSED PURSUANT TO SECTION 25205.14 OF THE HEALTH AND SAFETY CODE AND IS BASED ON YOUR BEING IDENTIFIED BY THE DEPARTMENT OF TOXIC SUBSTANCES CONTROL AS OPERATING UNDER A GRANT OF CONDITIONAL AUTHORIZATION.

INFORMATION CONCERNING DETERMINATIONS

A PERSON AGAINST WHOM A DETERMINATION IS MADE OR ANY PERSON DIRECTLY INTERESTED MAY PETITION FOR REDETERMINATION WITH THE BOARD OF EQUALIZATION WITHIN 30 DAYS FROM THE DATE SHOWN AT THE TOP OF THIS NOTICE.

A PETITION MUST BE IN WRITING AND STATE THE SPECIFIC GROUNDS UPON WHICH IT IS FOUNDED. ANYONE FILING A PETITION SHOULD BE PREPARED TO SUBMIT DOCUMENTARY EVIDENCE TO SUPPORT THE SPECIFIC GROUNDS UPON REQUEST.

IF A HEARING IS DESIRED, IT SHOULD BE REQUESTED IN THE PETITION. THE REQUEST SHOULD SPECIFY WHETHER AN APPEALS CONFERENCE WITH A STAFF COUNSEL OR SUPERVISING TAX AUDITOR AT THE NEAREST DISTRICT OFFICE OR A HEARING BEFORE THE BOARD IN SACRAMENTO IS DESIRED. A 10 DAY NOTICE OF THE TIME AND PLACE OF HEARING WILL BE GIVEN.

THE FILING OF A PETITION WILL NOT PREVENT THE ACCRUAL OF INTEREST. THE APPLICATION OF ADDITIONAL PENALTY REFERRED TO ABOVE WOULD BE DEFERRED UNTIL 30 DAYS AFTER THE DATE OF A NOTICE OF REDETERMINATION. PROMPT

GENERAL INFORMATION

The Generator Fee is imposed on each site that generates (produces) hazardous waste of 5 tons or more in each calendar year. The fee is calculated for each site's generation of waste regardless of the waste's final disposition (i.e., recycling or disposal).

Each year a prepayment of the fee is due by August 31 and a final return for the year must be filed by the last day of February following the end of the reporting period. An annual return must be filed even if you have no additional liability due. Failure to file either the prepayment or annual return may result in the imposition of penalty charges. Facility operators who pay an annual Facility Fee at a site are not subject to a Generator Fee for the same site.

PAID

AUG 22 1997

FILING INSTRUCTIONS

Please complete the worksheets on the reverse before filling in Information Below **Pay 3030**

AMOUNT OF PREPAYMENT (place a check mark by the option you choose)

- ☒ Option 1 One hundred percent (100%) of the applicable Generator Fee & Waste Reporting Surcharge Fee based on the total volume of hazardous waste generated for all sites during January 1 through June 30 of the current calendar year.
- ☐ Option 2 An amount equal to fifty percent (50%) of the Generator Fee and Waste Reporting Surcharge Fee paid to the Board for the preceding calendar year (if zero for prior year, you must use Option 1).

1. Amount of prepayment (enter amount from worksheet on reverse) 1. \$ 175.00
2. Penalty [multiply line 1 by 10% (.10) if payment is made after due date shown above] 2. \$.00
3. INTEREST OF 12% PER ANNUM (0.010000 PER MONTH) IS DUE IF PAYMENT IS MADE AFTER THE DUE DATE. 3. \$.00

E. L. BORENSEN, JR.
 Executive Director

Account No.: HA EF 36-006117

Dear Mr. Reed:

The Department of Toxic Substances Control (DTSC), based on manifests filed with their department, has informed us that you may have underpaid the 1996 Annual Hazardous Waste Generator Fee and Waste Reporting Surcharge Fee Return imposed pursuant to Health and Safety Code Section 25205.5.

Below is an analysis by site showing the tonnage upon which the reclassification is being made.

Hazardous Waste Generator Fee

<u>EPA #</u>	<u>Tons Per DTSC</u>	<u>Reported Category</u>	<u>Reclassified Category</u>	<u>Additional Fee Due</u>	<u>Interest Through August 1999</u>
CAD008391427	29	3	4	\$1,231.00	\$361.06

Please note that for the Hazardous Waste Generator Fee and Reporting Surcharge Fee Return, total tonnage includes recycled waste, waste shipped out of state, and any waste generated as the result of a one time cleanup. However, used motor oil removed from motor vehicles that is recycled is not subject to the fee. In addition, the Hazardous Waste Generator Fee and Waste Reporting Surcharge Fee may be offset by fees paid to a local agency during the state generator fee reporting period. Not all fees qualify. In order to qualify, the local fees must be used to fund a hazardous waste management program operated pursuant to a memorandum of understanding with the California Department of Toxic Substances Control. In cases where you reported for multiple generator sites, the fees must have been paid for the site that is receiving the offset. If you feel you meet the above criteria you must submit documentation showing the fee paid and the amount paid.

For your information, we have listed the Annual Hazardous Waste Generator Fee Rates and the Waste Reporting Surcharge Fee Rates.

Hazardous Waste Generator Fee and Waste Reporting Surcharge Fee Rates for 1996

<u>Category</u>	<u>Generator Fee Rate</u>
Category 2 Less than 5 tons	-0-
Category 3 5 tons to less than 25 tons	175.00
Category 4 25 tons to less than 50 tons	1,406.00
Category 5 50 tons to less than 250 tons	3,517.00
Category 6 250 tons to less than 500 tons	17,582.00
Category 7 500 tons to less than 1000 tons	35,164.00
Category 8 1000 tons to less than 2000 tons	52,744.00
Category 9 2000 tons plus	70,327.00

If you do not agree with the proposed Hazardous Waste Generator Fee, forward additional information and documentation to reconcile any discrepancies. Should we not hear from you within 30 days from the date of this letter, we shall assume that you concur with our findings and a notice of determination will be issued for the applicable Annual Hazardous Waste Generator Fee for \$1,592.06 which includes interest through August 1999. (Please note, all determinations issued accrue interest monthly on the tax due computed from the due date of the return. Because interest continues to accrue at the rate of 0.917 percent each month or any fraction thereof, on any fees unpaid, it would be advisable to pay the liability as soon as possible. Any fees paid that are ultimately determined to not be due will be refunded with interest.) Please include a copy of this letter should you reply.

Thank you for your cooperation in this matter. For any additional information or questions, please call me at (916) 323-3296.

Sincerely,

→ Jon Lepak

CAD008391427**GENERAL INFORMATION**

The Generator Fee is imposed on each site that generates (produces) hazardous waste of 5 tons or more in each calendar year. The fee is calculated for each site's generation of waste regardless of the waste's final disposition (i.e., recycling or disposal).

Each year a prepayment of the fee is due by August 31 and a final return for the year must be filed by the last day of February following the end of the reporting period. An annual return must be filed even if you have no additional liability due. Failure to file either the prepayment or annual return may result in the imposition of penalty charges. Facility operators who pay an annual Facility Fee at a site are not subject to a Generator Fee for the same site.

FILING INSTRUCTIONS

Please see the reverse side for calculation worksheets.

AMOUNT OF PREPAYMENT (place a check mark by the option you choose)

☒ Option 1 One hundred percent (100%) of the applicable Generator Fee & Waste Reporting Surcharge Fee based on the total volume of hazardous waste generated for all sites during January 1 through June 30 of the current calendar year.

☐ Option 2 An amount equal to fifty percent (50%) of the Generator Fee and Waste Reporting Surcharge Fee paid to the Board for the preceding calendar year (if zero for prior year, you must use Option 1).

1. Amount of prepayment (enter amount from worksheet on reverse) 1. \$ 175.00

2. Penalty [multiply line 1 by 10% (.10) if payment is made
after due date shown above] 2. \$.003. INTEREST OF 12% PER ANNUM (0.010000 PER MONTH)
IS DUE IF PAYMENT IS MADE AFTER THE DUE DATE. 3. \$.00

SPECIAL NOTICE - GENERATOR FEE REFUND CLAIMS*(1998 Claims must be postmarked by March 31, 1999)*

Senate Bill 2014 (Chapter 737), enacted in 1998, provides for two potential refunds of the hazardous waste generator fee paid to the Board of Equalization (Board).

The first is for generators who paid generator fees to the Board and who have also paid generator inspection fees to a Certified Unified Program Agency (CUPA). The bill provides that

- The generator must have received a local fee credit against the state generator fee paid for hazardous waste generated in 1996; and
- The refund cannot exceed the lower of (1) the generator fee paid for the calendar year period for which the claim is made; or (2) the hazardous waste generator inspection fee paid to a CUPA in the calendar year period for which the claim is made.

The second is for generators who submit hazardous waste for recycling. The bill provides that

- The hazardous waste must be submitted to an offsite facility that pays a facility fee under section 25205.2 of the Health and Safety Code;

*(continued on reverse)***Claim for Refund Pursuant to Senate Bill 2014 (Chapter 737), Calendar Year 1998****Health and Safety Code Section 25205.9***(copy and use a separate form for each generation site)*

HAZARDOUS WASTE GENERATOR FEE AND WASTE REPORTING SURCHARGE FEE RETURN INSTRUCTIONS

GENERAL INFORMATION

The Generator Fee is imposed on each site that generates (produces) hazardous waste of 5 tons or more in each calendar year. The fee is calculated for each site's generation of waste regardless of the waste's final disposition (i.e., recycling or disposal). 1990 legislation imposed a Waste Reporting Surcharge Fee for waste generated beginning with calendar year 1990. The Surcharge Fee has been included in the fees due in Column C of the return. The surcharge rate is 4.75% (.0475) of the generator fee, or 4.53% (.0453) of the combined rate.

EXEMPTIONS FROM THE FEE

- 1) Used motor oil removed from motor vehicles that is recycled by a recycler permitted by the Department of Toxic Substances Control;
- 2) Wastes that are generated, recycled and reused onsite.
- 3) Aqueous waste treated in a treatment unit operating, or which subsequently operates, pursuant to a permit by regulation. However, hazardous waste generated by this process is subject to the Generator Fee and Waste Reporting Surcharge Fee.

EXTREMELY HAZARDOUS WASTE

Beginning January 1, 1994, a single calendar year fee applies to any person producing extremely hazardous waste. This fee should be paid prior to producing extremely hazardous waste.

Pursuant to Section 25115 of the Health and Safety Code "Extremely Hazardous Waste" means any hazardous waste or mixture of hazardous wastes which, if human exposure should occur, may likely result in death, disabling personal injury or serious illness caused by the hazardous waste or mixture of hazardous wastes because of its quantity, concentration, or chemical characteristics. Waste containing asbestos is not classified as extremely hazardous waste.

If you are unable to determine whether your waste is extremely hazardous, please contact the Waste Classification Helpline at the Department of Toxic Substances Control at (916) 322-7676 between the hours of 8:00 a.m. to 12 noon, Monday through Friday.

Lines 1a and 1b. Please check the appropriate boxes, and complete the remainder of the return.

FILING REQUIREMENTS

Every person who produces hazardous waste must file this return on or before January 31 with remittance to the Board for any amounts due. This return must be filed even though you have no liability for the fee. Failure to file may result in the imposition of civil penalties. Late payment incurs a penalty of 10% and interest at an adjusted annual rate established pursuant to Section 6591.5 of the Revenue and Taxation Code. Facility operators who pay the Facility Fee are not subject to the Generator Fee for the facility site. However, they are subject to the Surcharge Fee which is to be filed on a special Surcharge Fee return for the facility site.

FILING INSTRUCTIONS

Please select the appropriate fee category for each site where hazardous waste was generated in this state.

If you are reporting for more than one site, please use the enclosed Schedule G or provide the site address, EPA number, and appropriate fee category on an attachment.

CREDIT FOR LOCAL FEES (LINE 11)

The Generator Fee and Waste Reporting Surcharge Fee may be offset by fees paid to a local agency for the state generator fee reporting period. Not all fees qualify. In order to qualify the local fees must be used to fund a hazardous waste management program operated pursuant to a memorandum of understanding with the California Department of Toxic Substances Control. In cases where you are reporting for multiple generating sites, the local fees paid for a site can only be applied to offset the generator and waste reporting surcharge fees due for that site.

Underground storage tank fees and emergency response plan fees do not qualify as credits. Also, fees paid to a fire department are generally not acceptable as credits.

MAKE CHECK OR MONEY ORDER PAYABLE TO STATE BOARD OF EQUALIZATION.
Always write your account number on your check or money order. Make a copy of this document for your records.

INSTRUCTIONS - HAZARDOUS WASTE DISPOSAL FEE RETURN

GENERAL

The California State Board of Equalization administers the taxes and fees imposed under the California Hazardous Substances Tax Law. These taxes and fees apply to the generation and the land disposal of hazardous waste. They are as follows:

1. The *disposal fee* applies to hazardous waste disposed to land in this state. The fee is reported on a quarterly or semi-annual basis.
2. The *generator fee* and the *waste reporting surcharge fee* are imposed on each site where five tons or more of hazardous waste were generated. These fees are reported on a calendar year basis on a separate return which will be mailed to you.

FILING REQUIREMENTS

Every person who disposes of hazardous waste on-site or submits hazardous waste for disposal off-site must file a hazardous waste disposal fee return with the Board. Returns must be filed on or before the last day of the month following the reporting period for which the fee is due. The return must be filed even though no wastes were disposed of during the time period it covers. The return must be accompanied by a remittance payable to the Board of Equalization for the amount of the fee due. Late payments are subject to a penalty of 10% (.10) and interest at an adjusted annual rate established pursuant to Section 6591.5 of the Revenue and Taxation Code.

PREPARATION OF RETURN

Column A - Enter the total tons of hazardous waste by category disposed of on-site or submitted for off-site disposal. If you disposed of more than 5,000 tons per site in any month of Non-RCRA or Mining Waste reported on line 2a, 2b, or 3, please provide supporting information reconciling Columns A and B with your return. Please refer to Section 25174.6 of the Health and Safety Code.

Column B - Enter taxable tons. The disposal fee is imposed on each ton or fraction thereof. Any fraction of a ton reported in Column A should be rounded up to the next whole ton. For example, if in Column A you reported 21.1 tons, you would report taxable tonnage of 22.0 tons in Column B.

UNIFORM HAZARDOUS WASTE MANIFEST

Information required on your return may be obtained from your copy of the Uniform Hazardous Waste Manifest and from the confirmation copy received from the disposal site. The copy will usually indicate the method of disposal in Box "K" of the manifest. The numbers in the box are explained on the reverse side of the last copy of the manifest and are helpful in determining the reporting category. The hazardous waste composition is broken down in Box "J." This information is helpful in determining if the waste is Hazardous, Extremely Hazardous or Restricted. Total quantity and weight are indicated in Boxes 13 and 14.

To convert units to tons a conversion table is listed below:

G = Gallon	0.00417 (Water)
T = Ton	1.0 (2000 lbs)
Y = Yard	1.35 (Soil)
P = Pound	0.0005

Please note that the conversion table is to be used as a general guideline and the characteristic of your waste may vary the conversion factor.

INSTRUCTIONS - HAZARDOUS WASTE DISPOSAL FEE RETURN

GENERAL

The California State Board of Equalization administers the taxes and fees imposed under the California Hazardous Substances Tax Law. These taxes and fees apply to the generation and the land disposal of hazardous waste. They are as follows:

1. The DISPOSAL FEE applies to hazardous waste disposed to land in this state. The fee is reported on a quarterly or semi-annual basis.
2. The GENERATOR FEE and the WASTE REPORTING SURCHARGE FEE are imposed on each site where five tons or more of hazardous waste were generated. These fees are reported on a calendar year basis on a separate return which will be mailed to you.

FILING REQUIREMENTS

Every person who disposes of hazardous waste on-site or submits hazardous waste for disposal off-site must file a hazardous waste disposal fee return with the Board. Returns must be filed on or before the last day of the month following the reporting period for which the fee is due. The return must be filed even though no wastes were disposed of during the time period it covers. The return must be accompanied by a remittance payable to the Board of Equalization for the amount of the fee due. Late payments are subject to a penalty of ten percent (.10) and interest at an adjusted annual rate established pursuant to Section 6591.5 of the Revenue and Taxation Code.

PREPARATION OF RETURN

Column A - Enter the total tons of hazardous waste by category disposed of on-site or submitted for off-site disposal. If you disposed of more than 5,000 tons per site in any month of Non-RCRA or Mining Waste reported on line 2a, 2b, or 3, please provide supporting information reconciling Columns A and B with your return. Please refer to Section 25174.6 of the Health and Safety Code.

Column B - Enter taxable tons. The disposal fee is imposed on each ton or fraction thereof. Any fraction of a ton reported in Column A should be rounded up to the next whole ton. For example, if in Column A you reported 21.1 tons, you would report taxable tonnage of 22.0 tons in Column B.

UNIFORM HAZARDOUS WASTE MANIFEST

Information required on your return may be obtained from your copy of the Uniform Hazardous Waste Manifest and from the confirmation copy received from the disposal site. The copy will usually indicate the method of disposal in Box "K" of the manifest. The numbers in the box are explained on the reverse side of the last copy of the manifest and are helpful in determining the reporting category. The hazardous waste composition is broken down in Box "J". This information is helpful in determining if the waste is Hazardous, Extremely Hazardous or Restricted. Total quantity and weight are indicated in Boxes 13 and 14.

To convert units to tons a conversion table is listed below:

G = Gallon	0.00417 (Water)
T = Ton	1.0 (2000 lbs)
Y = Yard	1.35 (Soil)
P = Pound	0.0005

Please note that the conversion table is to be used as a general guideline and the characteristic of your waste may vary the conversion factor.

NOTICE OF DETERMINATION					
YOU ARE HEREBY NOTIFIED OF AN AMOUNT DUE AS SHOWN BELOW.					

PAID

APR 11 1994

21173.00

52641

HAZARDOUS SUBSTANCE TAX GRANT OF CONDITIONAL AUTHORIZATION	AMOUNT			
	FEE	INTEREST	PENALTY	TOTAL
AS DETERMINED	1173.00			1173.00
FOR THE PERIOD 01/01/94 - 12/31/94				
TOTAL	1173.00			1173.00
***** PAY THIS AMOUNT				1173.00

ADDITIONAL INTEREST OF \$ 9.77 ACCRUES ON THE AMOUNT OF FEE AT THE RATE OF 0.8333% PER MONTH AFTER 05/01/94.

ADDITIONAL PENALTY OF \$ 117.30 IS DUE IF NOT PAID BY 04/28/94.

THE ANNUAL FEE HAS BEEN ASSESSED PURSUANT TO SECTION 25205.14 OF THE HEALTH AND SAFETY CODE AND IS BASED ON YOUR BEING IDENTIFIED BY THE DEPARTMENT OF TOXIC SUBSTANCES CONTROL AS OPERATING UNDER A GRANT OF CONDITIONAL AUTHORIZATION.

INFORMATION CONCERNING DETERMINATIONS

A PERSON AGAINST WHOM A DETERMINATION IS MADE OR ANY PERSON DIRECTLY INTERESTED MAY PETITION FOR REDETERMINATION WITH THE BOARD OF EQUALIZATION WITHIN 30 DAYS FROM THE DATE SHOWN AT THE TOP OF THIS NOTICE.

A PETITION MUST BE IN WRITING AND STATE THE SPECIFIC GROUNDS UPON WHICH IT IS FOUNDED. ANYONE FILING A PETITION SHOULD BE PREPARED TO SUBMIT DOCUMENTARY EVIDENCE TO SUPPORT THE SPECIFIC GROUNDS UPON REQUEST.

IF A HEARING IS DESIRED, IT SHOULD BE REQUESTED IN THE PETITION. THE REQUEST SHOULD SPECIFY WHETHER AN APPEALS CONFERENCE WITH A STAFF COUNSEL OR SUPERVISING TAX AUDITOR AT THE NEAREST DISTRICT OFFICE OR A HEARING BEFORE THE BOARD IN SACRAMENTO IS DESIRED. A 10 DAY NOTICE OF THE TIME AND PLACE OF HEARING WILL BE GIVEN.

THE FILING OF A PETITION WILL NOT PREVENT THE ACCRUAL OF INTEREST. THE APPLICATION OF ADDITIONAL PENALTY REFERRED TO ABOVE WOULD BE DEFERRED UNTIL 30 DAYS AFTER THE DATE OF A NOTICE OF REDETERMINATION. PROMPT

MAKE CHECK OR MONEY ORDER PAYABLE TO STATE BOARD OF EQUALIZATION.

Always write your account number on your check or money order. Make a copy of this document for your records.

FACILITY WASTE REPORTING SURCHARGE FEE RETURN INSTRUCTIONS

GENERAL INFORMATION

Pursuant to 1990 legislation, a Waste Reporting Surcharge Fee is imposed on generators of hazardous waste. The surcharge fee is based upon waste generated during the calendar year. It is in addition to the Generator Fee and is set at a rate of 4.75% (.0475) of the Generator Fee.

Although hazardous waste facility operators who have paid the facility fee for the current period are not subject to the Generator's Fee, they are responsible for the Waste Reporting Surcharge Fee. It should be noted that treatment residues produced from third party generated waste must be included along with self generated waste to calculate the appropriate fee category.

EXEMPTIONS FROM THE FEE

- 1) Used motor oil removed from motor vehicles that is recycled by a recycler permitted by the Department of Toxic Substances Control.
- 2) Wastes that are generated, recycled and reused onsite are not subject to the fee.
- 3) Aqueous waste treated in a treatment unit operating, or which subsequently operates pursuant to a permit by regulation. However, hazardous waste generated by this process is subject to the Generator Fee and and Waste Reporting Surcharge Fee.

FILING REQUIREMENTS

All hazardous waste facility operators who have paid the facility fee for the current period must file this return on or before January 31 with remittance to the board for any amounts due. This return must be filed even if you are not liable for the fee.

Failure to file may result in the imposition of civil penalties. Late payment incurs a penalty of 10% and interest at an adjusted annual rate established pursuant to Section 6591.5 of the Revenue and Taxation Code.

PREPARATION OF RETURN

Select a facility site classification that pertains to the facility listed on the front of the return from lines 1 through 8 in Column A. Show your selection by checking the appropriate box in Column B and then enter the amount of surcharge due from Column C in Column D. Continue on through line 14. Do not include any other facility site on this return. Each registered facility will receive a return for their particular site.

CREDIT FOR LOCAL FEES (LINE 10)

The Waste Reporting Surcharge Fee may be offset by fees paid to a local agency for a hazardous waste management plan conducted by the local agency pursuant to a memorandum of understanding with the California Department of Toxic Substances Control. The local fees must have been paid for the site subject to the surcharge and paid during the period covered by this return.

The amount of the credit for local fees should not exceed the amount of the state surcharge fee due for the site. Credits do not include underground storage tank fees; emergency response plan fees; etc.

RE: HA HQ 36-006117

Dear Ms. Gillam:

A review of your Hazardous Waste Disposal Fee Return for the October - December 1992 period shows that you reported tonnage under category 10 (residues from an approved treatment process disposed out-of-state).

Please be advised that only waste residues that result from a treatment process approved by the State Department of Toxic Substances Control pursuant to Section 25179.6 of the Health and Safety Code qualifies for reporting under the disposal fee categories 9 and/or 10. Section 25179.6 requires that the treatment method removes free liquid, removes volatile organic constituents, and provides a minimum 50% waste reduction.

It is our understanding that there are no facilities in California that have been approved pursuant to this section. Unless you can provide additional information to validate your treatment process, it appears that you have reported your waste residues in the wrong category.

Please send correcting return information with your remittance for the additional fees plus interest.

If you are a generator and have had your waste transported offsite for treatment only, the disposal fee does not apply to you. Please send correcting return information and request a refund.

If you have any questions, please call the above telephone number.

Sincerely,

A handwritten signature in dark ink, appearing to read "S. Crutison", written over a horizontal line.

MAKE CHECK OR MONEY ORDER PAYABLE TO STATE BOARD OF EQUALIZATION.

Always write your account number on your check or money order. Make a copy for your records.

HAZARDOUS WASTE DISPOSAL FEE RETURN

GENERAL

The California State Board of Equalization administers the taxes and fees imposed under the California Hazardous Substances Tax Law. These taxes and fees apply to the generation and the land disposal of hazardous waste. They are as follows:

1. The DISPOSAL FEE applies to hazardous waste disposed to land in this state. It also applies to hazardous waste generated in California and transported outside this state for land disposal. It applies to hazardous waste that is generated in this state and transported for treatment outside this state where the waste residues are hazardous and disposed to land. The fee is reported on a quarterly or semi-annual basis.
2. The GENERATOR FEE and the WASTE REPORTING SURCHARGE FEE are imposed on each site where five tons or more of hazardous waste were generated. These fees are reported on a calendar year basis on a separate return which will be mailed to you.

FILING REQUIREMENTS

Every person who disposes of hazardous waste on-site or submits hazardous waste for disposal off-site, and every person who submits hazardous waste for transportation in this state for disposal outside the state must file a hazardous waste disposal fee return with the Board. Returns must be filed on or before the last day of the month following the reporting period for which the fee is due. The fee return must be filed even though no wastes were disposed of during the time period covered by the return. The return must be accompanied by a remittance payable to the Board of Equalization for the amount of fee due. Late payments are subject to a penalty of ten percent (.10) and interest at an adjusted annual rate established pursuant to Section 6591.5 of the Revenue and Taxation Code.

PREPARATION OF RETURN

Column A - Enter the total tons of hazardous waste by category, disposed of on-site or submitted for off-site disposal, or sent out-of-state for treatment where the residues are disposed of to land. If you disposed of more than 5,000 tons per site in any month of Non-RCRA or Mining Waste reported on line 2 or line 3, please provide supporting information reconciling Columns A and B with your return. Please refer to Section 25174.6 of the Health and Safety Code.

Column B - Enter taxable tons. The disposal fee is imposed on each ton or fraction thereof. Any fraction of a ton reported in Column A should be rounded up to the next whole ton. For example, if in Column A you reported 21.1 tons, you would report taxable tonnage of 22.0 tons in Column B.

UNIFORM HAZARDOUS WASTE MANIFEST

Information required on your return may be obtained from your copy of the Uniform Hazardous Waste Manifest and from the confirmation copy received from the disposal site. The copy will usually indicate the method of disposal in Box "K" of the manifest. The numbers in the box are explained on the reverse side of the last copy of the manifest and are helpful in determining the reporting category. The hazardous waste composition is broken down in Box "J". This information is helpful in determining if the waste is Hazardous, Extremely Hazardous or Restricted. Total quantity and weight are indicated in Boxes 13 and 14.

To convert units to tons a conversion table is listed below:

G = Gallon	0.00417 (Water)
P = Pound	0.0005
T = Ton	1.0000

Please note that the conversion table is to be used as a general guideline and the characteristic of your waste may vary the conversion factor.

HAZARDOUS WASTE DISPOSAL FEE CATEGORY DEFINITIONS

1. **RECYCLE** - To extract or reuse a material found in hazardous waste. Recycled hazardous waste is that which is reprocessed and not disposed of into or onto the land in this state. ("In this state" means within the extension limits of the State of California and includes all territory within those limits owned or ceded to the United States of America.) Do not include oil that is removed from a motor vehicle where the oil is subsequently recycled.
2. **NON-RCRA REGULATED HAZARDOUS WASTE** - Total tons of waste disposed of, or submitted for disposal in this state that are regulated as hazardous by the State of California but not regulated by the Federal Government under the Resources Conservation and Recovery Act (RCRA). Examples of Non-RCRA regulated hazardous waste may include asbestos, tannery waste, drilling muds and shredder waste. You are responsible, however, to determine if the characteristics of your waste would render it RCRA waste and reportable in category 6.
3. **MINING WASTES** - Total tons of hazardous waste disposed of or submitted for disposal in this state, which result from the extraction, beneficiation, and processing of ores and minerals, including phosphate rock and the overburden from the mining of uranium ore and which is not otherwise subject to the disposal fee as a Restricted Waste or an Extremely Hazardous Waste. Non-RCRA mining waste is exempt pursuant to section 25143.1 of the Health and Safety Code.
4. **EXTREMELY HAZARDOUS WASTE** - Total tons of extremely hazardous waste disposed of or submitted for disposal in this state.
5. **RESTRICTED WASTE** - Total tons of restricted hazardous waste listed in Section 25122.7 of the Health and Safety Code disposed of or submitted for disposal in this state.
6. **HAZARDOUS WASTE** - Total tons of RCRA regulated hazardous waste disposed of or submitted for disposal in this state. Please note that in most cases asbestos should be reported in category 2, as Non-RCRA regulated hazardous waste.
7. **TRANSPORTED OUT-OF-STATE** - Total tons of hazardous waste generated in California and transported out-of-state for disposal. This also includes total tons of hazardous waste residues from a treatment process conducted outside this state where the residues are disposed of as a hazardous waste. It will be presumed, unless you can prove otherwise, that the amount of taxable waste residue is the gross amount transported out-of-state. Do not include waste that is transported out-of-state for incineration, dechlorination, or treated through an approved treatment method as described in category 10.
8. **RESIDUES FROM INCINERATION OR DECHLORINATION** - Total tons of solid waste residues disposed of or submitted for disposal in-state, where the residues are as a result of a hazardous waste incineration or dechlorination process.
9. **TREATMENT RESIDUES DISPOSED OF IN-STATE** - Total tons of solid waste residues disposed of or submitted for disposal in-state, where the residues are from a treatment method that removes free liquid, removes volatile organic constituents, and provides a minimum of 50 percent waste reduction. The treatment method must be approved by the Department of Toxic Substances Control pursuant to Section 25179.6 of the Health and Safety Code.
10. **TREATMENT RESIDUES DISPOSED OF OUT-OF-STATE** - Total tons of solid waste residues submitted for disposal out-of-state, where the residues are from a treatment method that removes free liquid, removes volatile organic constituents, and provides a minimum of 50 percent waste reduction. The treatment method must be approved by the Department of Toxic Substances Control pursuant to Section 25179.6 of the Health and Safety Code.

California 95814

DISPOSAL OF WASTE PURSUANT TO REMEDIAL ACTION PLANS (RAP)

Section 25345.3 of the Health and Safety Code provided an exemption from the Disposal Fee and the Superfund Tax for hazardous waste submitted for disposal pursuant to an approved RAP. This exemption expired on September 30, 1990. In place of this exemption Senate Bill 1857 (Chapter 1268, Statutes of 1990) created a new, partial exemption for this waste. The new exemption provides that the waste will be assessed fees and taxes at a fraction of the full rates. The rates are as follows:

BOARD MEMBERS

WILLIAM M. BENNETT
First District,
Kentfield

CONWAY H. COLLIS
Second District,
Los Angeles

ERNEST J.
DRONENBURG, JR.
Third District,
San Diego

MEMBER
Fourth District,
Los Angeles

GRAY DAVIS
State Controller,

PERIOD	PERCENT OF APPLICABLE RATE
10/01/90 to 06/30/91	45% of applicable rate
07/01/91 to 06/30/92	55% of applicable rate

These rates apply to both the Disposal Fee and the Superfund Tax.

To qualify for reporting waste disposals at these reduced rates you must have a RAP which has been prepared or approved by the Department of Health Services (DOHS) or the Regional Water Quality Control Board (RWQCB) pursuant to Section 25356.1 of the Health and Safety Code. For purposes of this exemption, RAPs do not include remedial orders issued by local agencies, or imminent and substantial endangerment orders issued by the DOHS or the RWQCB, or remedial orders issued by the United States Environmental Protection Agency.

You are required to file special Hazardous Substances Tax (Disposal Fee) and Superfund Tax Returns to report wastes disposed of pursuant to your RAP. Only wastestreams identified in the RAP may be reported on these returns. Wastestreams not addressed in the RAP should be reported on your regular Hazardous Substances Tax (Disposal Fee) and Superfund Tax Returns. The special Hazardous Substances Tax Return will be for wastes submitted for disposal during the period 10/01/90 to 12/31/90. It will be due on or before 01/31/91. The special Superfund Tax Return will be for the same period, and will be due on or before 03/01/91.

If you are currently operating pursuant to an approved RAP, please contact us so that we may register you and send you the appropriate returns. If you have more than one site for which a RAP has been issued, you are required to have a separate account with us for each site. To contact us regarding your registration, or if you have any questions relating to these fees, you may write, or telephone the:

STATE BOARD OF EQUALIZATION
EXCISE TAX DIVISIONP.O. BOX 647
SACRAMENTO, CA 95803-0647
(916) 739-2582**INSTRUCTIONS - HAZARDOUS WASTE TAX RETURN, ET-501-HW****GENERAL**

The California State Board of Equalization administers three tax/fee programs that apply to the generation and disposal of hazardous waste and they are as follows:

1. THE DISPOSAL FEE (Hazardous Waste Tax) pursuant to Section 25174.6 of the Health and Safety Code is a fee that is based upon disposal of hazardous waste. The fee is normally reported on a quarterly or semiannual basis and is due one month after the end of the reporting period. The fee applies to persons who annually submit more than 500 lbs. of hazardous waste for disposal in state or out of state, or who submit hazardous waste for treatment out of state where the residues are a hazardous waste and are disposed of to land. Please report your Disposal Fee information on the enclosed form.

2. THE HAZARDOUS SUBSTANCES (Superfund) Tax pursuant to Section 25342 of the Health and Safety Code is an annual tax based upon disposal of hazardous waste. You will be mailed a disposal return on February 1st to report your prior calendar year disposals of hazardous waste. The Superfund Tax is due on or before March 1st. The tax applies to persons who dispose of or submit for disposal more than 500 lbs. of hazardous waste in state or out of state. It also applies to persons who submit more than 500 lbs. of hazardous waste for treatment outside this state.

3. THE GENERATORS OPERATING FEE pursuant to 25205.5 of the Health and Safety Code is a site fee imposed upon persons who generate five tons or more of hazardous waste at each generating site. The fee is due on January 31st for waste generated during the previous calendar year.

FILING REQUIREMENTS

Every person who disposes of hazardous wastes on-site, every person who disposes of or submits hazardous wastes for disposal off-site and every person who submits hazardous waste for transportation in this state for disposal outside the state must file a hazardous waste tax return with the Board. Returns must be filed on or before the last day of the month following the reporting period for which the tax is due. The tax return must be filed even though no wastes were disposed of during the time period covered by the return. The return must be accompanied by a remittance payable to the Board for the amount of tax due. Late payments are subject to a penalty of 10% (.10) and interest at an adjusted annual rate established pursuant to Section 19269 of the Revenue and Taxation Code.

PREPARATION OF RETURN

Column A - Enter the total tonnage of all hazardous wastes, in each category, disposed of or submitted for off-site disposal, sent for recycling, or sent out-of-state for disposal. If you disposed of more than 5,000 tons in any one month on Lines 1 or 2, please refer to Section 25174.6 of the Health and Safety Code and provide a supplemental schedule, by location, reconciling Columns A and B with your return.

Column B - Enter taxable tonnage. The disposal fee is imposed on each ton or fraction thereof. Any fraction of a ton reported in Column A should be rounded up to the next full ton. For example, if in Column A you reported 21.1 tons, you would report a taxable tonnage of 22.0 tons in Column B.

UNIFORM HAZARDOUS WASTE MANIFEST

Information required on your return may be obtained from your copy of the Uniform Hazardous Waste Manifest and from the confirmation copy received back from the disposal site. The copy will usually indicate the method of disposal in Box K of the manifest. The numbers in the box are explained on the reverse side of the last copy of the manifest and are helpful in determining the reporting category. The hazardous waste composition is broken down in Box J and is helpful in determining if the waste is a "hazardous", "extremely hazardous" or "restricted" waste. Total quantity and weight are indicated in Boxes 13 and 14 of the manifest. To convert units to tons, a conversion table is listed below. To translate these values to tons, use the factor next to each and multiply this value times the total quantity.

CONVERSION TABLE

G = Gallon	0.00417 (Water)
P = Pound	0.0005
T = Ton	1.0000

Please note that the conversion table is to be used as a general guideline and the characteristic of your waste may vary the conversion factor.

HAZARDOUS WASTE CATEGORY DEFINITIONS

Oa. RECYCLE - To extract or reuse a material found in hazardous waste. Recycled hazardous waste is that which is reprocessed and not disposed of into or onto the land in this state. ("In this state" means within the extension limits of the State of California and includes all territory within those limits owned or ceded to the United States of America). Do not include used oil that is removed from a motor vehicle where the oil is subsequently recycled.

Ob. OUT OF STATE DISPOSAL - Total tons of waste generated in this state that is transported out of state for disposal, and the total residual tonnage from waste generated in state that is treated out of state where the residue is disposed of as a hazardous waste. It will be presumed unless you can prove otherwise that the amount of taxable waste residue is the gross amount transported out of state. Do not include waste that is transported out of state for either incineration, dechlorination, or treated through an approved treatment process as explained in category 5(b).

1. NON-RCRA REGULATED WASTE - Total tons of waste disposed of, or submitted for disposal off-site that are regulated as hazardous by the State of California but are not regulated under the Resource Conservation and Recovery Act (RCRA). Examples of Non-RCRA regulated hazardous waste include asbestos, oil and water, diesel contaminated soil, tannery waste, drilling muds, and shredder waste where the waste contains enough hazardous constituents to render it hazardous, and in most cases gasoline and gasoline contaminated soil.

This does not include hazardous wastes that are subject to the Resource Conservation and Recovery Act (RCRA) Subchapter III (commencing with Section 6921) of Chapter 82 of Title 42 of the United States Code.

2. MINING WASTES - Total tons of hazardous waste disposed of or submitted for off-site disposal which result from the extraction, beneficiation, and processing of ores and minerals, including phosphate rock and the overburden from the mining of uranium.

3a. EXTREMELY HAZARDOUS SURFACE IMPOUNDED - Total tons of extremely hazardous waste surface impounded.

3a. EXTREMELY HAZARDOUS NOT SURFACE IMPOUNDED - Total tons of extremely hazardous waste disposed of by other methods.

4a. RESTRICTED WASTES SURFACE IMPOUNDED - Total tons of restricted hazardous waste listed in Section 66900 of Title 22 of the California Administrative Code surface impounded.

4b. RESTRICTED WASTES NOT SURFACE IMPOUNDED - Total tons of restricted hazardous waste listed in Section 66900 of Title 22 of the California Administrative Code disposed of by other methods.

5. OTHER - a) Total tons of solid hazardous waste residues disposed of or submitted for disposal in this state where the residues are a result of either an incineration process or a dechlorination process.

b) Total tons of solid hazardous waste residues disposed of or submitted for disposal in state or out of state where the residues are a result of a treatment process approved by the Department of Health Services pursuant to Section 25179.6 of the Health and Safety Code, where the process removes free liquids, and volatile organic constituents, and reduces the waste volume by a minimum of 50%.

If you are a generator who has submitted your waste to a hazardous waste facility for incineration where the hazardous waste is being utilized as a source of fuel, report your tonnage on Line Oa - Recycled.

6a. HAZARDOUS WASTE LANDFILLED - Total tons of RCRA regulated hazardous waste disposed of or submitted for disposal which are landfilled. **NOTE:** In most cases, asbestos and petroleum based wastes which are landfilled should be reported on Line 1 - RCRA Exempt.

6b. HAZARDOUS WASTE LANDFARMED - Total tons of hazardous waste disposed of or submitted for off-site disposal which are landfarmed.

6c. HAZARDOUS WASTE INJECTION WELL - Total tons of hazardous waste disposed of or submitted for off-site disposal which are disposed of via injection well.

6d. HAZARDOUS WASTE SURFACE IMPOUNDED - Total tons of hazardous waste disposed of or submitted for off-site disposal into a surface impoundment which includes evaporation ponds.

7. SHREDDER WASTE - This category has been deleted. Shredder waste that is a hazardous waste would normally be reported on Line 1.

8. DOUBLE LINED SURFACE IMPOUNDMENT - Total tons of hazardous waste disposed of or submitted for off-site disposal into a surface impoundment which is double lined. The owner or operator of the surface impoundment (double lined) shall certify to the Board that the requirements specified in Section 27174.6(8) of the Health and Safety Code are met. **NOTE:** At the present time, no Class I disposal facility has met the above requirements for double lined ponds. Therefore, any hazardous waste disposed of off-site by a generator into a surface impoundment should be reported on Line 6d - Hazardous Waste Surface Impounded.

BOARD OF EQUALIZATION
EXCISE TAX DIVISION

STATE HAZARDOUS WASTE SUPERFUND TAX INSTRUCTIONS

GENERAL INFORMATION

The California State Board of Equalization administers the taxes and fees imposed under the California Hazardous Substances Tax Law. These taxes and fees apply to the generation and disposal of hazardous waste. They are as follows:

1. The HAZARDOUS SUBSTANCE TAX (Superfund) applies to the land disposal of hazardous waste. The tax is applied to each ton, or fraction of a ton, disposed of in this state, or outside the state of California during the calendar year reporting period. Please report your Superfund Tax information on the enclosed return.
2. The GENERATOR FEE is imposed on each site that generates 5 tons or more of hazardous waste during the calendar year. The fee applies to the total amount of hazardous waste generated, regardless of the final disposition of the waste (i.e. recycling or disposal).
3. The DISPOSAL FEE applies to the land disposal of hazardous waste. The fee is applied to each ton, or fraction of a ton, disposed of during the quarterly or semiannual reporting period.

FILING REQUIREMENTS

Every person who disposes of more than 500 lbs. of hazardous waste onsite, every person who submits more than 500 lbs. of hazardous waste for disposal offsite and every person who generates hazardous waste in this state and submits the waste for treatment outside the state must file the Hazardous Waste Superfund Tax Return on or before March 1 with remittance to the Board for any amounts due. If you disposed of less than 500 lbs. enter zero and file the return. This return must be filed even though you have no liability for the tax. Failure to file may result in the imposition of civil penalties. Late payment incurs a penalty of 10% and interest at an adjusted annual rate established pursuant to Section 19269 of the Revenue and Taxation Code.

PREPARATION OF RETURN

Column A - Enter the total tonnage of all hazardous wastes, by category, disposed of onsite, or submitted for disposal offsite, or sent out of state for disposal, or the hazardous waste residues resulting from waste submitted for treatment outside of the state and requiring disposal.

Column B - Enter the taxable tonnage. The Superfund Tax is imposed on each ton or fraction of a ton. Any fraction of a ton reported in Column A should be rounded up to the next full ton in Column B. For example, if in Column A you reported 21.1 tons, you would report 22.0 tons in Column B.

Column C - The tax rates for each ton reported in Column B are provided in Column C.

Column D - Multiply the total tons reported in Column B by the tax rates in Column C for each category. Total the amounts in Column D for all categories on Line 11. This is your tax due for the period.

UNIFORM HAZARDOUS WASTE MANIFEST

Information required on your return may be obtained from your copy of the Uniform Hazardous Waste Manifest and from the confirmation copy received back from the treatment or disposal facility. Total quantity and weight are indicated in boxes 13 and 14 of the manifest. The copy will usually indicate the method of disposal in Box K of the manifest. To convert these measurements to tons, a conversion table is listed below. To translate these to tons, use the factor next to each and multiply this value times the total quantity.

CONVERSION TABLE	
G = gallons	0.00417
T = tons	1.0 (2000 lbs.)
Y = yards	1.35 (soil)

Please note the conversion table provides a general guideline. The characteristics of your waste may vary the conversion factor.

STATE HAZARDOUS WASTE SUPERFUND TAX RETURN CATEGORY DEFINITIONS

CATEGORY A

The total tons of hazardous waste disposed of, or submitted for disposal in this state or outside the state, for which the Federal Regulation has been suspended under the Solid Waste Disposal Act by Act of Congress, plus the total tons of hazardous waste transferred to a surface impoundment for the purpose of reducing the water content of the waste by evaporation, plus the total tons of hazardous waste disposed of into an injection well or landfarm, exclusive of the waste reported in categories B thru F. This category applies to all California regulated only wastes. NOTE: LANDFILL DISPOSAL IS NOT LANDFARMING.

CATEGORY B

The total tons of FEDERALLY REGULATED HAZARDOUS WASTE disposed of, or submitted for disposal, in this state, or outside this state, to a landfill exclusive of the wastes reported in Categories A, C, D, E or F. NOTE: THIS CATEGORY IS FOR LANDFILL DISPOSAL ONLY.

CATEGORY C

The total tons of EXTREMELY HAZARDOUS WASTE disposed of, or submitted for disposal in this state, or outside of this state to a landfill exclusive of the wastes reported in Categories A, B, D, E or F. NOTE: THIS CATEGORY IS FOR LANDFILL DISPOSAL ONLY.

CATEGORY D

The total tons of hazardous or extremely hazardous waste disposed of, or submitted for disposal, in this state or outside of this state, that results from the extraction, beneficiation, and processing of ores and minerals, including phosphate rock and overburden from the mining of uranium ore.

CATEGORY E

The total tons of hazardous waste disposed of, or submitted for disposal, in this state that is a solid hazardous waste residue resulting from incineration or dechlorination. NOTE: THIS CATEGORY APPLIES TO IN STATE DISPOSAL ONLY.

CATEGORY F

The total tons of hazardous waste resulting from wastes generated in this state and submitted outside of the state for treatment and requiring disposal in accordance with the definitions provided in Categories A thru D described above. To report in this category the hazardous waste must have been generated in California and transported out of the state for treatment, and the residues must be disposed of as a hazardous waste as it would be identified under California regulation. This includes the residues from wastes sent out of state for incineration or dechlorination.

SACRAMENTO, CA 95803-0647

ELECTRONIC CHROME COMPANY, INC
9132 DICE ROAD
SANTA FE SPRINGS CA 90670

EPA NO.: CAD008391427

This report must be filed on or before the due date shown above by every person who submitted for disposal off-site, or who disposed of on-site, hazardous waste or extremely hazardous waste in California during the above calendar year. Do not include wastes that are recycled or transported out of state for disposal. Any fraction of a ton must be rounded up to the next whole ton. Any person disposing of 500 pounds or less during the above calendar year must report zero tonnage. **ANY PERSON WHO KNOWINGLY REFUSES TO FILE THIS REPORT AS REQUIRED SHALL BE LIABLE, UPON CONVICTION, FOR A CIVIL PENALTY PURSUANT TO SECTION 43602 OF THE HAZARDOUS SUBSTANCES TAX LAW.**

"HAZARDOUS WASTE" means a waste, or combination of wastes, which because of its quantity, concentration, or physical, chemical, or infectious characteristics may either:

- Cause, or significantly contribute to an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness.
- Pose a substantial present or potential hazard to human health or environment when improperly treated, stored, transported, or disposed of, or otherwise managed.

"EXTREMELY HAZARDOUS" means any hazardous waste or mixture of hazardous wastes which, if human exposure should occur, may likely result in death, disabling personal injury or serious illness caused by the hazardous waste or mixture of hazardous wastes because of its quantity, concentration, or chemical characteristics.

HAZARDOUS WASTE CATEGORIES	TOTAL TONS
<p>A. The total tons of HAZARDOUS waste, the Federal Regulation of which has been suspended under the Solid Waste Disposal Act by Act of Congress, disposed of, or submitted for disposal, in California, plus the total tons of waste material transferred to a surface impoundment in California for the purpose of reducing water content of such waste and material by evaporation, plus the total tons of hazardous waste disposed of into an injection well or landfill, exclusive of the waste reported in Categories D and E. NOTE: LAND FILL DISPOSAL IS NOT LAND FARMING.</p>	3.5
<p>B. The total tons of HAZARDOUS waste disposed of, or submitted for disposal, in California exclusive of the waste reported in Categories A, C, D, and E. NOTE: LAND FILL ONLY.</p>	
<p>C. The total tons of EXTREMELY HAZARDOUS waste disposed of, or submitted for disposal, in California exclusive of the waste reported in Categories A, B, D, and E. NOTE: LAND FILL ONLY.</p>	
<p>D. The total tons of HAZARDOUS waste disposed of, or submitted for disposal, in California from the extraction, beneficiation and processing of ores or minerals including phosphate rock and overburden from mining or uranium ore.</p>	
<p>E. The total tons of HAZARDOUS waste disposed of, or submitted for disposal, in California that is a solid hazardous waste residue resulting from incineration.</p>	

I hereby certify that this report, including any accompanying schedule and statement, has been examined by me and to the best of my knowledge and belief is true, correct and complete.

HAZARDOUS WASTE REPORTING CATEGORIES

0a. **RECYCLE** — To extract or reuse a material found in hazardous waste. Recycled hazardous waste is that which is reprocessed and not disposed of into or onto the land in this state. ("In this state" means within the extension limits of the State of California and includes all territory within those limits owned or ceded to the United States of America).

0b. **OUT-OF-STATE DISPOSAL** — Transported outside the State of California for disposal or recycling.

1. Total tons of hazardous waste disposed of or submitted for off-site disposal which are not subject to the Resource Conservation and Recovery Act (RCRA), Subchapter III (commencing with Section 6921) of Chapter 82 of Title 42 of the United States Code, or hazardous waste for which the administrator of the Environmental Protection Agency has determined that regulation is unwarranted.

(Essentially this is hazardous waste that is considered hazardous by the State of California, but not by the Environmental Protection Agency. Examples include oil and water, drilling muds, asbestos and tannery waste).

2. Total tons of hazardous waste disposed of or submitted for off-site disposal which result from the extraction, beneficiation, and processing of ores and minerals, including phosphate rock and the overburden from the mining of uranium.

3a. Total tons of extremely hazardous waste surface impounded.

3b. Total tons of extremely hazardous waste disposed of by other methods.

4a. Total tons of restricted hazardous waste listed in Section 66900 of Title 22 of the California Administrative Code surface impounded.

4b. Total tons of restricted hazardous waste listed in Section 66900 of Title 22 of the California Administrative Code disposed of by other methods.

5. Total tons of solid waste residues resulting from incineration or other controlled chemical or physical treatment processes if the Department of Health Services determines that the processes alter the physical properties of the waste being incinerated or treated and effectively remove all free liquids and volatile organic constituents from the waste being treated or incinerated.

6a. Total tons of hazardous waste disposed of or submitted for off-site disposal which are landfilled.

6b. Total tons of hazardous waste disposed of or submitted for off-site disposal which are landfarmed.

6c. Total tons of hazardous waste disposed of or submitted for off-site disposal which are disposed of via injection well.

6d. Total tons of hazardous waste disposed of or submitted for off-site disposal which are disposed of into a surface impoundment.

7. Total tons of waste resulting from the shredding of automobile bodies, sheet metal and household appliances. The producer of the shredder waste must certify in writing to the department that the producer has in place an ongoing program for inspection and removal of all auto batteries, mufflers, tailpipes and wheelweights from the shredded feed. The producer also must meet any other regulations imposed by the department.

SANTA FE SPRING, CA 90670

This report must be filed on or before the due date shown above by every person who submitted for disposal off-site, or who disposed of on-site, hazardous waste or extremely hazardous waste in California during the above calendar year. ANY PERSON WHO KNOWINGLY REFUSES TO FILE THIS REPORT AS REQUIRED SHALL BE LIABLE, UPON CONVICTION, FOR A CIVIL PENALTY PURSUANT TO SECTION 43602 OF THE HAZARDOUS SUBSTANCES TAX LAW.

"HAZARDOUS WASTE" means a waste, or combination of wastes, which because of its quantity, concentration, or physical chemical, or infectious characteristics may either:

- Cause, or significantly contribute to an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness.
- Pose a substantial present or potential hazard to human health or environment when improperly treated, stored, transported, or disposed of, or otherwise managed.

"EXTREMELY HAZARDOUS WASTE" means any hazardous waste or mixture of hazardous wastes which, if human exposure should occur, may likely result in death, disabling personal injury or serious illness caused by the hazardous waste or mixture of hazardous wastes because of its quantity, concentration, or chemical characteristics.

HAZARDOUS WASTE CATEGORIES	TOTAL TONS (To One Decimal)
A. The total tons of HAZARDOUS or EXTREMELY HAZARDOUS waste, the Federal Regulation of which has been suspended under the Solid Waste Disposal Act by Act of Congress, disposed of, or submitted for disposal, in California, plus the total tons of waste material transferred to a surface impoundment in California for the purpose of reducing the water content of such waste and material by evaporation, plus the total tons of hazardous waste disposed of into an injection well or landfarm, exclusive of the waste reported in Section D. (NOTE: LAND FILL DISPOSAL IS NOT LAND FARMING)	36.1
B. The total tons of HAZARDOUS waste disposed of, or submitted for disposal, in California exclusive of the waste reported in Sections A, C and D.	
C. The total tons of EXTREMELY HAZARDOUS waste disposed of, or submitted for disposal, in California exclusive of the waste reported in Sections A, B and D.	
D. The total tons of HAZARDOUS or EXTREMELY HAZARDOUS waste disposed of, or submitted for disposal, in California from the extraction, beneficiation and processing of ores or minerals including phosphate rock and overburden from mining of uranium ore.	36.1

I hereby certify that this report, including any accompanying schedule and statement, has been examined by me and to the best of my knowledge and belief is a true, correct, and complete report.

**READ INSTRUCTIONS
BEFORE PREPARING**

Make changes if name
or address is incorrect

SIC CODE: 3599

All employers in industries with evidence of a potential for lead poisoning are required to pay the Occupational Lead Poisoning Fee. This return is being sent to you because you have been identified by the Department of Health Services as being in one of these industries.

Please read the instructions on the reverse side before you begin. Then read Sections I and II below and complete the section that is applicable to you. Mail the return, along with any payment due, to the address above.

SECTION I

☐ A. I will request a fee waiver because lead or lead containing materials were not present in any amount at any California site of my business operation during the above calendar year. I understand that if I do not request a waiver within 90 days following the due date of this return and/or if a waiver is not granted, the fee plus applicable interest will be due.

If you checked the box in Section I, do the following:

- B. Enter the number of your employees (see Definitions on the back of this form).
- C. Mail the enclosed postcard to the Department of Health Services to obtain information about how to request a fee waiver and supply documentation of the lead free nature of your business.
- D. Submit your request for waiver within 90 days following the due date of this return to the Department of Health Services. Neither the filing of this return nor the mailing of the enclosed postcard constitute a fee waiver request.
- E. DO NOT COMPLETE SECTION II. Sign and date the return and send it to the address above.

SECTION II

Complete this section if you are not requesting a fee waiver.

A. NUMBER OF EMPLOYEES DURING CALENDAR YEAR COVERED BY THIS RETURN (Mark the category that applies to your business)		B. AMOUNT OF FEE	C. AMOUNT OF FEE DUE
1. Less than 10 employees	1.	\$ 0.00	\$
2. 10 to 99 employees	2.	190.00	190.00
3. 100 to 499 employees	3.	379.00	
4. 500 or more employees	4.	949.00	
5. Enter the total fee due (amount from line 1, 2, 3, or 4)		5.	
6. Penalty [multiply line 5 by 10% (.10) if payment is made after the due date shown above]		PENALTY 6.	
7. INTEREST OF 11% PER ANNUM (0.009167 PER MONTH) IS DUE IF PAYMENT IS MADE AFTER THE DUE DATE.		INTEREST 7.	
8. TOTAL AMOUNT DUE AND PAYABLE (add lines 5, 6 and 7)		8.	\$ 190.00

I hereby certify that this return, including any accompanying schedules and statements, has been examined by me and to the best of my knowledge and belief is a true, correct and complete return.

This report must be filed on or before the due date shown above by every person who submitted for disposal off-site, or who disposed of on-site, hazardous waste or extremely hazardous waste in California during the above calendar year. ANY PERSON WHO KNOWINGLY FAILS TO FILE THIS REPORT AS REQUIRED SHALL BE LIABLE, UPON CONVICTION, FOR CIVIL PENALTIES OF UP TO \$25,000 FOR EACH DAY THAT THE VIOLATION CONTINUES.

"HAZARDOUS WASTE" means a waste, or combination of wastes, which because of its quantity, concentration, or physical chemical, or infectious characteristics may either:

- Cause, or significantly contribute to an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness.
- Pose a substantial present or potential hazard to human health or environment when improperly treated, stored, transported, or disposed of, or otherwise managed.

"EXTREMELY HAZARDOUS WASTE" means any hazardous waste or mixture of hazardous wastes which, if human exposure should occur, may likely result in death, disabling personal injury or serious illness caused by the hazardous waste or mixture of hazardous wastes because of its quantity, concentration, or chemical characteristics.

HAZARDOUS WASTE CATEGORIES	TOTAL TONNAGE (To One Decimal)
A. The total tonnage of HAZARDOUS or EXTREMELY HAZARDOUS waste, the Federal Regulation of which has been suspended under the Solid Waste Disposal Act by Act of Congress, disposed of, or submitted for disposal, in California, plus the total tonnage of waste material, on a total wet basis, transferred to a surface impoundment in California for the purpose of reducing the water content of such waste and material by evaporation, exclusive of the waste reported in Section D.	65.0 Tons
B. The total tonnage of HAZARDOUS waste disposed of, or submitted for disposal, in California exclusive of the waste reported in Sections A and D. All tonnage reported in Section C must also be reported in this section.	
C. The total tonnage of EXTREMELY HAZARDOUS waste disposed of, or submitted for disposal, in California exclusive of the waste reported in Sections A and D.	
D. The total tonnage of HAZARDOUS or EXTREMELY HAZARDOUS waste disposed of, or submitted for disposal, in California from the extraction, beneficiation and processing of ores or minerals including phosphate rock and overburden from mining of uranium ore.	

I hereby certify that this report, including any accompanying schedule and statement, has been examined by me and to the best of my knowledge and belief is a true, correct, and complete report.

HAZARDOUS WASTE GENERATOR FEE AND WASTE REPORTING SURCHARGE FEE RETURN INSTRUCTIONS

GENERAL INFORMATION

The GENERATOR FEE is imposed on each site that generates (produces) hazardous waste of 5 tons or more in each calendar year. The fee is calculated for each site's generation of waste regardless of the waste's final disposition (i.e. recycling or disposal). 1990 legislation imposed a Waste Reporting Surcharge Fee for waste generated during the calendar year 1990. The SURCHARGE FEE has been included in the fees due in column C of the return. The surcharge rate is 4.75% (.0475) of the generator fee, or 4.53% (.0453) of the combined rate.

FILING REQUIREMENTS

Every person who produces hazardous waste must file this return on or before January 31 with remittance to the board for any amounts due. This return must be filed even though you have no liability for the fee. Failure to file may result in the imposition of civil penalties. Late payment incurs a penalty of 10% and interest at an adjusted annual rate established pursuant to Section 6591.5 of the Revenue and Taxation Code. Facility operators that pay the Facility Fee are not subject to the Generator Fee for the facility site. However, they are subject to the Surcharge Fee which is to be filed on a special Surcharge Fee return for the facility site.

FILING INSTRUCTIONS

Please select the appropriate fee category for each site where hazardous waste was generated in this state or at sites located outside this state where the waste was transported into California for treatment, recycling, or disposal.

If you are reporting for more than one site, please use the enclosed Schedule G or provide the site address, EPA number, and appropriate fee category on an attachment.

EXEMPTIONS

Used motor oil removed from motor vehicles that is recycled is not subject to the fee.

Wastes that are generated, recycled and reused onsite are not subject to the fee.

CREDIT FOR LOCAL FEES (LINE 10)

The Generator Fee and Waste Reporting Surcharge Fee may be offset by fees paid to a local agency during the state generator fee reporting period. Not all fees qualify. In order to qualify the local fees must be used to fund a hazardous waste management program operated pursuant to a memorandum of understanding with the California Department of Toxic Substances Control. In cases where you are reporting for multiple generating sites, the fees must have been paid for the site that is receiving the offset.

Fees that do not qualify; underground storage tank fees, and emergency response plan fees. Generally, fees paid to a fire department are not acceptable as an offsetting credit.

SUMMARY OF GENERATING SITES (SCHEDULE G)

A Schedule G is enclosed for taxpayers who are currently reporting more than one generating site under a single Board of Equalization Tax Account Number. To complete Schedule G, check the appropriate box for the category which reflects the total tonnage of hazardous waste generated at each site. Add any generating sites which are not included on the schedule by EPA number and site address. Total the number of sites by category and bring this forward to Column B of the Hazardous Waste Generator Fee Return. Multiply the number of sites per category times the fee for that category. Total the fees due in Column D.

If you did not receive a Schedule G and have more than one generating site to report, please make a supplemental attachment listing the generating site address, EPA number, and generating category.

UNIFORM HAZARDOUS WASTE MANIFEST

Information required on your return may be obtained from your copy of the Uniform Hazardous Waste Manifest. Total quantity and weight are indicated in boxes 13 and 14 of the manifest. To convert units to tons, a conversion table is listed below. To translate these values to tons, use the factor next to each and multiply this value times the total quantity.

CONVERSION TABLE

G = gallons	0.00417
T = tons	1.0(2000 lbs)
Y = yards	1.35 (soil)

Please note the conversion table provides a general guideline. The characteristics of your waste may vary the conversion factor.
